"GOOD DIGITAL CITIZEN"

Cyber Tips For Kids

BEWARE OF STRANGERS ONLINE

The Internet can be wonderful for kids. They can use it to research school reports, communicate with teachers and other kids, and play interactive games. But online access also comes with risks, like inappropriate content, cyberbullying, and online predators. Using apps and websites where kids interact, predators may pose as a child or teen looking to make a new friend. They might prod the child to exchange personal information, such as address and phone number, or encourage kids to call them, seeing their phone number via caller ID.

Don't Talk or listen to strangers!

TIPS TO KEEP YOUR KIDS SAFE ONLINE

GETTING INVOLVED IN KIDS' ONLINE ACTIVITIES

Parents should be aware of what their kids see and hear on the Internet, who they meet, and what they share about themselves. Talk with your kids, use tools to protect them, and keep an eye on their activities.

More important than blocking objectionable material is teaching your kids safe and responsible online behavior, and keeping an eye on their Internet use.

Basic guidelines to share with your kids for safe online use:

- Follow the family rules, and those set by the Internet service provider.
- Never post or trade personal pictures.
- Never reveal personal information, such as address, phone number, or school name or location.
- Use only a screen name and don't share passwords (other than with parents).
- Never agree to get together in person with anyone met online without parent approval and/or supervision.
- Never respond to a threatening email, message, post, or text.
- Always tell a parent or other trusted adult about any communication or conversation that was scary or hurtful.

Basic guidelines for parental supervision:

- Spend time online together to teach your kids appropriate online behavior.
- Keep the computer in a common area where you can watch and monitor its use, not in individual bedrooms. Monitor any time spent on smartphones or tablets.
- Bookmark kids' favorite sites for easy access.
- Check your credit card and phone bills for unfamiliar account charges.
- Find out what, if any, online protection is offered by your child's school, after-school center, friends' homes, or any place where kids could use a computer without your supervision.
- Take your child seriously if he or she reports an uncomfortable online exchange.

THANK YOU

to all the participants and
State Poster Contest winners!

The poster art work located throughout the calendar was developed by students in the K-12 grade levels who participated in the 2022 Arizona Cyber Security State Awareness Poster Contest.
